The Superintendent or designee shall consult with district legal counsel, site administrators, district information technology staff, personnel department staff, and others as necessary to develop a secure document management system that provides for the storage, retrieval, archiving, and destruction of district documents, including electronically stored information such as email. This document management system shall be designed to comply with state and federal laws regarding security of records, record retention and destruction, response to "litigation hold" discovery requests, and the recovery of records in the event of a disaster or emergency.

The Superintendent or designee shall provide the notice in a timely manner either in writing or electronically, unless otherwise provided in law. The notice shall include the material specified in Civil Code 1798.29, be formatted as required, and be distributed in a timely manner, consistent with the legitimate needs of law enforcement to conduct an uncompromised investigation or any measures necessary to determine the scope of the breach and restore reasonable integrity of the data system.
