

Health Examinations

The Governing Board recognizes that periodic health examinations of students may lead to early detection and treatment of conditions that impact learning. Health examinations also may help in determining whether special adaptations of the school program are necessary.

The Superintendent or designee shall verify that students have complied with legal requirements for a comprehensive health screening, an oral health assessment, and immunizations at school entry. In addition, the district shall administer tests for vision, hearing, and scoliosis as required by law.

The Superintendent or designee shall ensure that staff employed to examine students exercise proper care of each student and that examination results are kept confidential. Records related to these examinations shall be maintained and released only in accordance with law.
